INCREASING DIGITALISATION AWARENESS & READINESS OF BULGARIAN COMMUNITIES

in collaboration with

НСОРБ
НАЦИОНАЛНО СДРУЖЕНИЕ НА ОБЩИНИТЕ В РЕПУБЛИКА БЪЛГАРИЯ

PHASE 3: EMPOWERMENT

FEBRUARY 18th, 2025

European Commission | serendipity | Capgemini | OASC OPEN & AGILE SMART CITIES & COMMUNITIES | technopolis group | imec embracing a better life | EUROCITIES | ICLEI Local Governments for Sustainability EUROPE | Deloitte.

Agenda for Training Session:

BULGARIA

Phase 1:

Planning Phase — How to Unlock the Potential of Digitalisation

- Climate Neutral and Smart Cities Mission cities' goals, resources & how cities can get involved.
- How to assess your Local and Regional Digital Maturity with LORDIMAS
- How to implement the EU methodology to define your own digitalisation roadmap.
- EU tailor-made procurement templates aligned with EU principles and standards

JANUARY 28TH, 2025 **9:30 CET**

Phase 2:

Preparation Phase — How to Set Up Your IT Infrastructure

- Understand the importance of open and shareable data as the foundation of your data infrastructures.
- Learn how to implement open data platforms and data spaces through an open reference architecture supported by MIMs
- Discover the open-source tools available through the EU Local Digital Twin toolbox

FEBRUARY 12TH, 2025 **9:30 CET**

Phase 3:

Empowerment Phase — How Funding and the Community Supports You

- Discover the Living-in.EU learning community, how to make use of the resources developed for and by the community, and how to engage with their activities
- Discover funding opportunities at EU level and learn how to apply and prepare your proposal

FEBRUARY 18TH, 2025 **9:30 CET**

European Commission

Detailed Agenda Overview

Phase 3: Empowerment Phase - How Funding and the Community Supports You

February 18th, 2025 **9:30 CET**

TIME	TOPIC	SPEAKER
9:30 - 9:35	**Introduction**	**Yana Docheva-** *National Association of Municipalities in the Republic of Bulgaria* **Ignacio Garcia Vega-** *Serendipity*
9:35 - 10:00	**EU funding opportunities to implement your digital strategy**	**Ignacio Garcia Vega** - *Serendipity*
10:00 - 10:40	**Living-in.EU: the gateway to knowledge sharing, curated resources and scalable solutions**	**Ana Georgieva -** *Eurocities* **Gabriela Ruseva -** *Eurocities* **Viviana Demonte -** *Eurocities* **Rodolphe Doité -** *ERRIN* **Danae Pantelide -** *ENoLL* **Sophie Meszaros -** *OASC*
10:40 - 10:50	**Questions and Answers**	**Yana Docheva-** *National Association of Municipalities in the Republic of Bulgaria* **Christopher Aguilar -** *Serendipity*
10:50 - 11:00	**Closing**	**Yana Docheva-** *National Association of Municipalities in the Republic of Bulgaria* **Christopher Aguilar -** *Serendipity*

EU FUNDING OPPORTUNITIES TO IMPLEMENT YOUR DIGITAL STRATEGY

European Commission

EU Funding Opportunities to Boost your Digital Strategy

1. Understand the main EU initiatives supporting your digital journey.
2. Identify funding opportunities for your digital transformation.
3. Navigate the basic requirements for participation and the application process.
4. Assess co-funding investment needs
5. Additional resources

European Commission

EU Funding Opportunities to Boost your Digital Strategy

1

Understand the main EU initiatives supporting your digital journey.

European Commission

European supporting initiatives overview

1. Support Services and Tools:

- LORDIMAS: Digital Maturity Assessment Tool
- Online Procurement Helpdesk: Procurement Support
- EU Local Digital Twin Toolbox: Open Standard Solutions

2. Development of New Regulations:

- AI Act: Guidelines for AI Applications
- Interoperable Europe Act: Promoting Interoperability
- Data Governance Act: Effective Data Governance

3. Establishment of Ecosystems:

- Living-in.EU: Community Collaboration
- OASC: Interoperability mechanisms (MIMs)
- CitiVERSE EDIC: Deployment Facilitation
- European Data Space for Smart Communities: Data Sharing

4. Funding Opportunities:

- Horizon Europe: research and innovation projects to advance digital technologies and public services.
- Digital Europe Programme: Reinforcing Digital Capacities
- CEF: digital networks and infrastructure
- Other: Interreg, ITS...
- National and Local funding opportunities

EU Funding Opportunities to Boost your Digital Strategy

2

Identify funding opportunities for your digital transformation.

European Commission

EU's 2021-2027 long-term budget

Multiannual Financial Framework (MFF)

The EU's 7-year budget

€1.211 trillion

€806.9 billion

NextGenerationEU

COVID-19 recovery package

Recovery and Resilience Facility

€723.8 billion

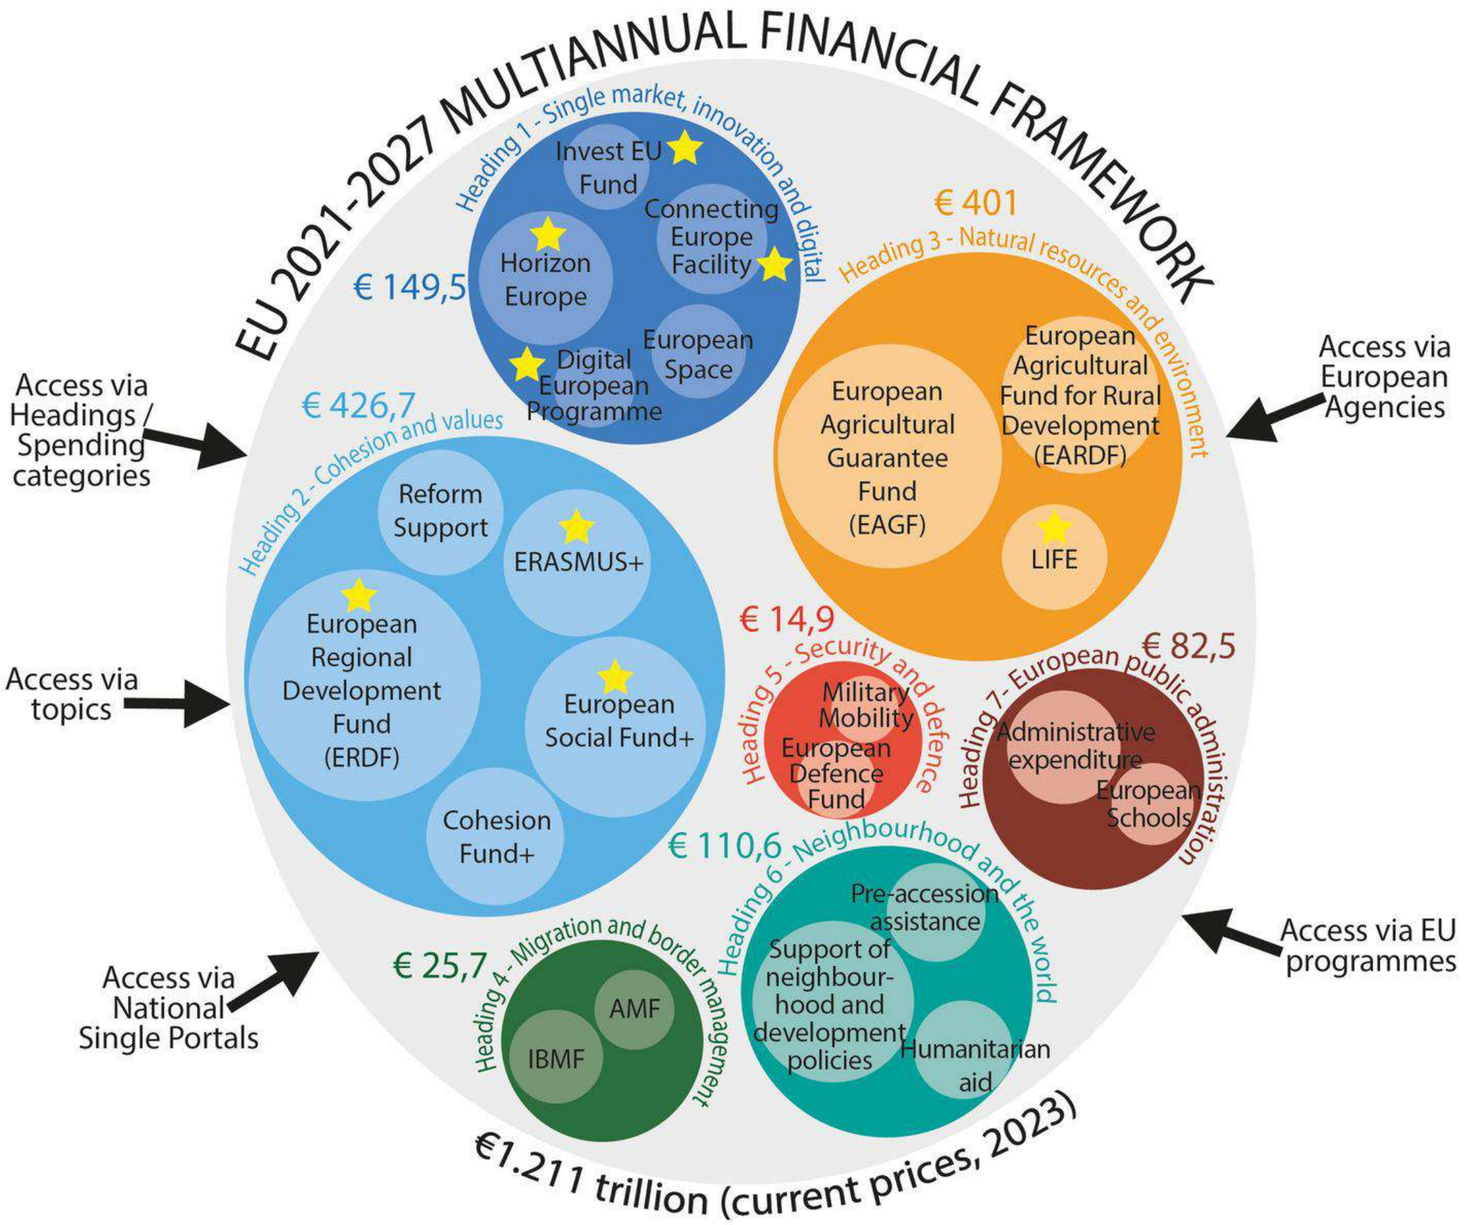
- **€338.0** billion grants
- **€385.8** billion loans

NextGenerationEU contribution to other programmes

EUR 83.1 billion

Note: All amounts are in current prices.

EU's 2021-2027 long-term budget



European Commission

EU Digital Funding Opportunities

Each programme contributes uniquely to the digital transformation of public administrations, supporting EU objectives of sustainable growth, competitiveness, and cohesion.

Digital Europe Programme (DEP) supports the development of digital infrastructure/skills, focusing on public admin efficiency + accessibility.

Horizon Europe funds research and innovation projects to advance digital technologies and public services.

Interreg promotes regional cooperation to enhance digital connectivity and innovation in public services.

Technical Support Instrument (TSI) offers tailored technical support for designing/ implementing digital reforms in public admin.

Connecting Europe Facility (CEF) improves digital networks and infrastructure, enhancing public administration services and connectivity.

The European Union (EU) supports the digital transformation of public administrations through various funding programmes. Here's an overview of how the funding works, who funds what, and who the stakeholders are for key programmes:

More info:

European Commission

Digital Europe

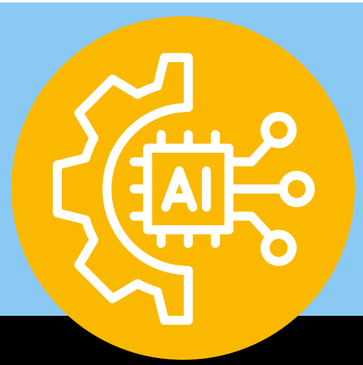
- **Funding Source**: The DEP is funded by the EU budget, with €7.6 billion allocated for 2021-2027.
- **Stakeholders**: Public administrations, industry, and research communities involved in digital transformation.
- **Objectives**: DEP aims to strengthen Europe’s digital capabilities by funding projects that develop digital infrastructure, enhance cybersecurity, and promote advanced digital skills. It supports public administrations in deploying AI, high-performance computing, and digital public services to improve efficiency and accessibility

Digital Europe Programme Overview

It will strengthen investments in supercomputing, artificial intelligence, cybersecurity, advanced digital skills, and ensuring a wide use of digital capacity across the economy and society.

Supercomputing

€ 2,2 Billion



Artificial Intelligence

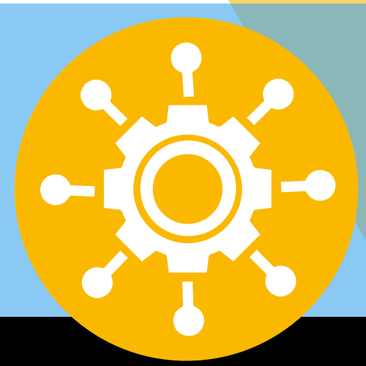
€ 2,1 Billion

Cybersecurity

€ 1,7 Billion

Advanced digital skills

€ 580 Million



Digital Capacity

€ 1,1 Billion

European Commission

€7.5 BILLION OF FUNDING FOR 2021-2027

Main Types of Actions

Simple Grants

Flexible type of action, for a variety of topics, can cover most activities and the partners will mostly use personnel costs

50% funding rate for all

SME Support Actions

Activities directly aiming at supporting SMEs involved in building up and the deployment of digital capacities.

75% funding rate for SMEs
50% funding rate for all other

Coordination and Support Actions (CSA)

A small type of action with the primary goal to promote cooperation and/or provide support to EU policies.

100% funding rate for all

European Commission

Upcoming Funding Opportunities

TOPIC OPPORTUNITY	DATES	AVAILABLE FUNDING
European data space for smart communities	**Open 1.06.24 | Close 28.02.25**	Three Open Calls during the period. It funds pilot projects up to 3M € with 50% cofund to advance the development and implementation of data spaces.
Penetration Test and Vulnerability Assessment	**Open 4.1.25 | Close 07.04.25**	Cascade Funding: CYSSDE aims to collaborate with up to 10 selected Penetration Testing organizations to execute a minimum of 100 Penetration Tests and Vulnerability Assessments for Essential Service Operators, SMEs, and other
European Master Programme for HPC	**Open 3.12.24 | Close 14.05.25**	To design and establish a pan-European Master of Science (MSc) programme in High Performance Computing
Preparedness Support and Mutual Assistance, Targeting Larger Industrial Operations and Installations	**Open 4.07.24 | Close 27.03.25**	To increase the level of protection and resilience to cyber threats, in particular for large industrial installations and infrastructures.
Development and Deployment of Advanced Key Technologies	**Open 4.07.24 | Close 27.03.25**	To enable European cybersecurity actors to take advantage of these new breakthroughs, improving detection and prevention capabilities, efficiency, scalability, and facilitating data sharing and regulatory compliance.

Upcoming Funding Opportunities

TOPIC OPPORTUNITY	DATES	AVAILABLE FUNDING
Support for Implementation of EU Legislation on Cybersecurity and National Cybersecurity Strategies (2024)	**Open 4.07.24 | Close 27.03.25**	Capacity building and the enhancement of cooperation on cybersecurity at technical, operational and strategic levels, in the context of existing and proposed EU legislation on cybersecurity in particular the NIS2 Directive (Directive (EU) 2022/2555), the Cybersecurity Act, and the Directive on attacks against information systems (Directive 2013/40).
Enlarging existing or Launching New Cross-Border SOC Platforms	**Open 4.07.24 | Close 27.03.25**	To strengthen capacities to analyse, detect and prevent cyber threats and to support the production of high-quality intelligence on cyber threats, notably through the exchange of data from various sources, public and private, as well as through the sharing of state-of-the-art tools and jointly developing cyber detection, analysis, and prevention capabilities in a trusted environment
Strengthening the SOC Ecosystem	**Open 4.07.24 | Close 27.03.25**	Empower SOCs which are linked to National SOCs, and to a stronger collaboration between local SOCs, National SOCs and Cross-Border SOC platforms, leading to an increased data sharing and better detection capability for cyber threats.
National SOCs	**Open 4.07.24 | Close 27.03.25**	To create or strengthen National SOCs, in particular with state-of-the-art tools for monitoring, understanding and proactively managing cyber events, in close collaboration with relevant entities such as CSIRTs.

Horizon Europe

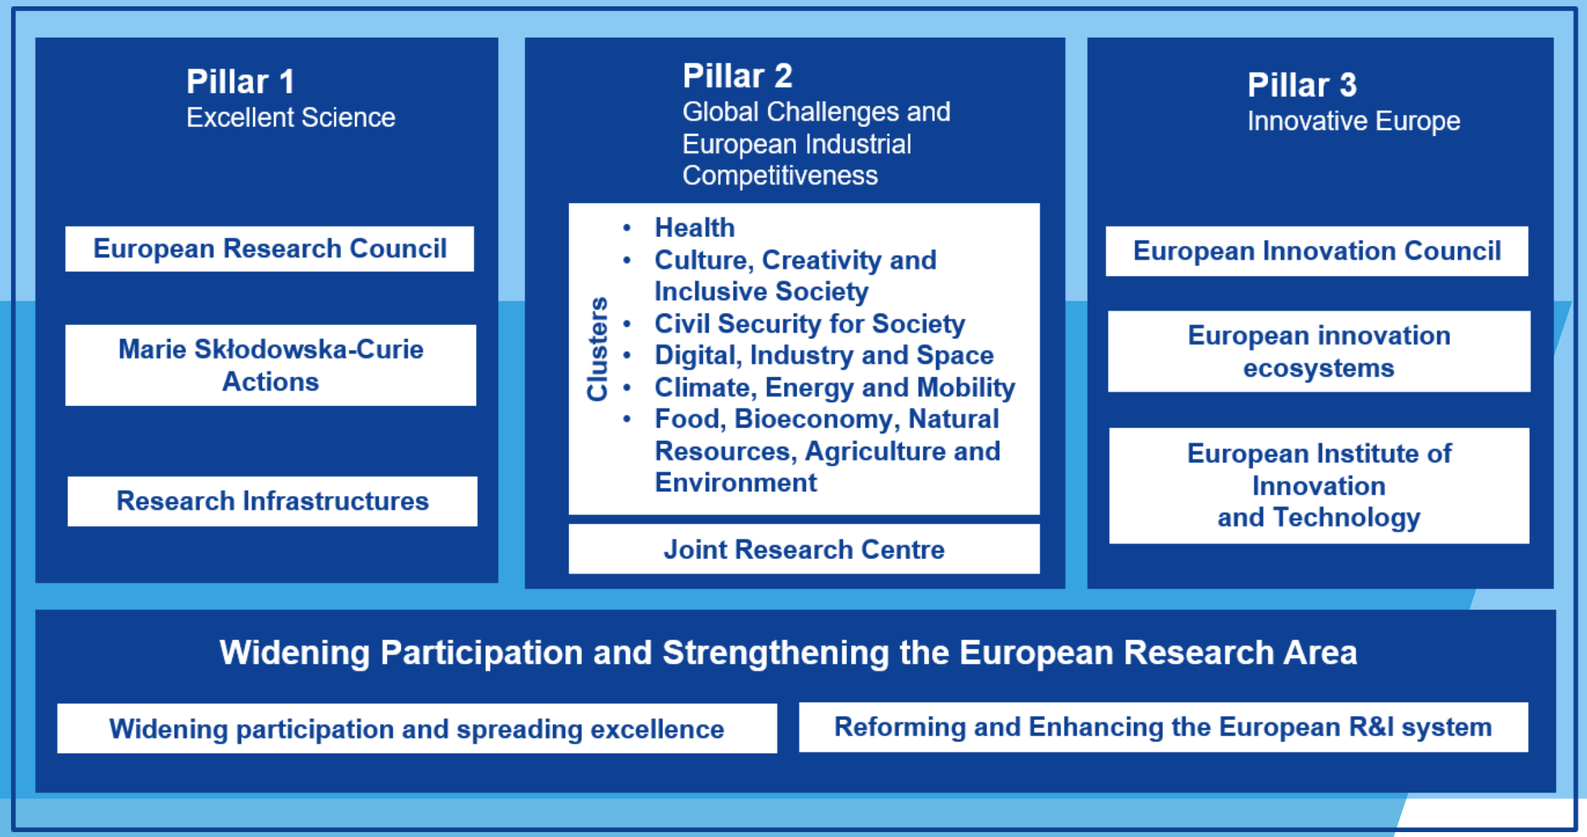
Horizon Europe

- **Funding Source**: Horizon Europe is the EU's main funding programme for research and innovation, with over €95 billion for 2021-2027. Overall it is expected that 35% will support digital transformation.
- **Stakeholders**: Researchers, universities, research organizations, SMEs, public authorities, and private sector entities.
- **Objectives**: HE has a dedicated budget for enabling technologies, such as artificial intelligence and robotics, next generation Internet, high performance computing, big data, key digital technologies, 6G.

European Commission

Horizon Europe Overview

Horizon Europe tackles climate change, helps to achieve the UN's Sustainable Development Goals and boosts the EU's competitiveness and growth. The programme facilitates collaboration and strengthens the impact of research and innovation in developing, supporting and implementing EU policies while tackling global challenges.

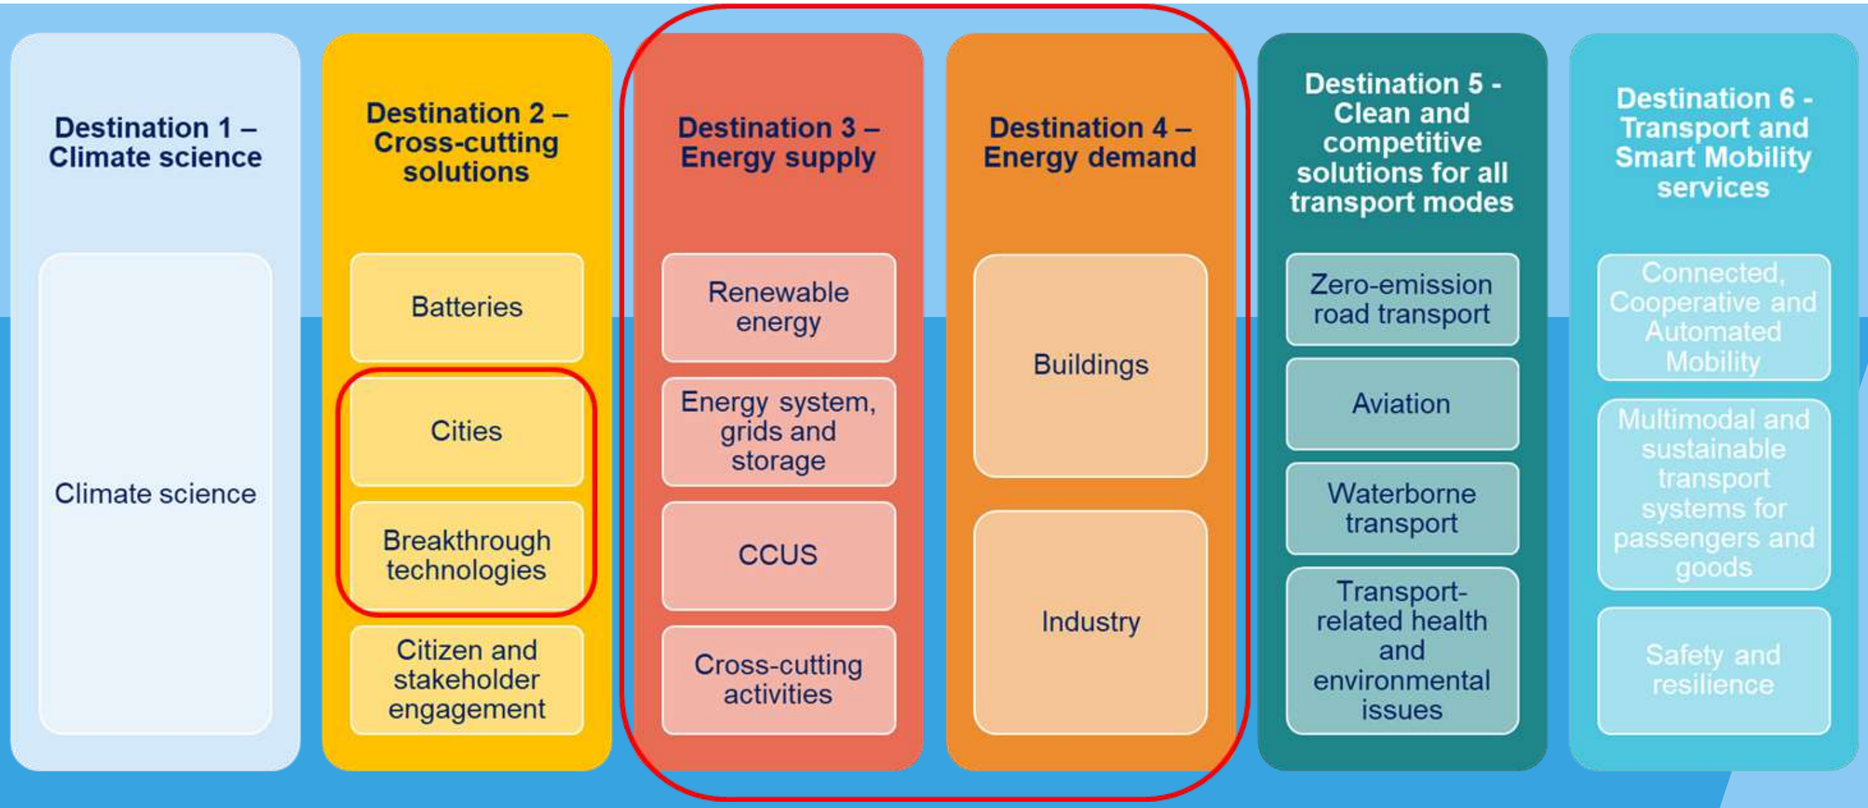


€95 BILLION OF FUNDING FOR 2021-2027

European Commission

Horizon Europe Overview

Cluster 5 focuses on **Climate, Energy, and Mobility**, offering cities funding opportunities to develop innovative solutions for sustainable urban environments. It supports projects that aim to enhance energy efficiency, promote clean transportation, and address climate change challenges, fostering resilient and smart cities



€95 BILLION OF FUNDING FOR 2021-2027

European Commission

Main Types of Actions

Research & Innovation Action (RIA)

Generate new knowledge or explore the feasibility of a new or substantially improved technology, product, process, service, or solution.

100% funding rate for all

Innovation Action (IA)

Creating plans and designs for new, modified, or improved products, processes, or services. Prototypes, tests, demos, pilot, validation/replication.

70% funding rate for for-profit

100% funding rate for all other

Coordination and Support Actions (CSA)

A small type of action with the primary goal to promote cooperation and/or provide support to EU policies.

100% funding rate for all

European Commission

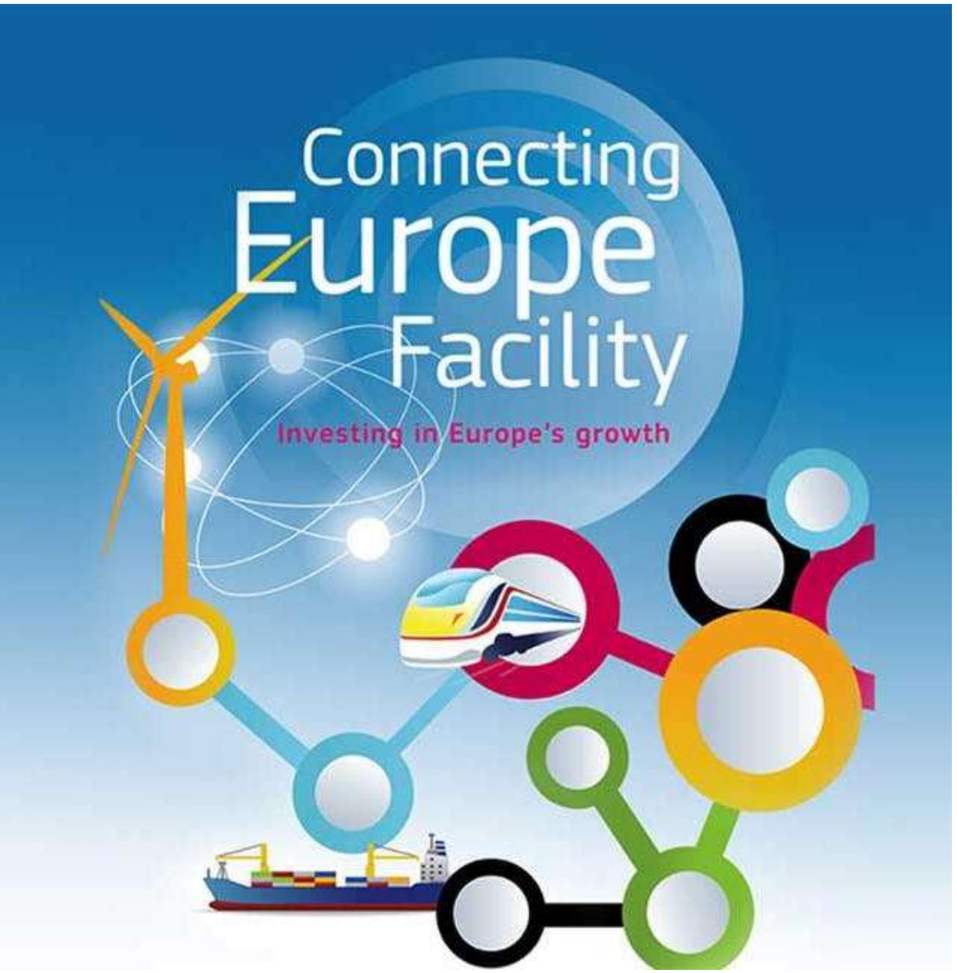
Upcoming Funding Opportunities

TOPIC OPPORTUNITY	DATES	AVAILABLE FUNDING
Rethinking Urban Spaces Towards Climate Neutrality (IA)	**Open 17.9.24 | Close 11.02.25**	45 MEuro funding – Projects must include pilot demonstrations in at least **3 cities**, including both urban and suburban areas.
Zero-Pollution Cities (RIA)	**Open 17.9.24 | Close 11.02.25**	20 MEuro funding - Projects must include pilot demonstrations in at least 2 cities
Mobility Management Plans and Behavioral Change (CSA)	**Open 17.9.24 | Close 11.02.25**	5 MEuro funding - Co design activities with stakeholders and citizens
Integrated Peri-Urban Areas in the Transition Towards Climate Neutrality (IA)	**Open 17.9.24 | Close 11.02.25**	28 MEuro funding - Pilot demonstrations in at least 3 peri-urban areas.
Other Funding opportunities	**Several dates**	Citcom.AI, Communicity, etc. Funding available for pilots to leverage AI and other emerging technologies in addressing the needs of cities and communities

Topics WP 2025 draft

TOPIC OPPORTUNITY	DATES	AVAILABLE FUNDING
Coupling circularity and climate mitigation in industrial sites and their cities and regions (IA)	**Estimate - Close 04.09.25**	It will fund 3 pilot projects up to 8,5M €.
Innovative, AI-based solutions for urban planning and management (IA)	**Estimate - Close 04.09.25**	It will fund 4 pilot projects up to 6M €.
Boosting the transformation towards climate-neutral cities, the net-zero economy and open strategic autonomy through Pre-Commercial Procurement (PCP)	**Estimate - Close 04.09.25**	It will fund between 3-4 PCPs of 7-12 M € each.
Walking and cycling: increasing their modal share to reap health benefits and emission reductions and integrating active mobility and micro-mobility devices, with smart technologies and infrastructure (IA)	**Estimate - Close 04.09.25**	It will fund 2 Pilots.

Connecting Europe Facility (CEF)



- **Funding Source**: CEF is funded by the EU budget, with €33.7 billion for 2021-2027.
- **Stakeholders**: Public authorities, infrastructure operators, and private entities in the transport, energy, and digital sectors.
- **Objectives**: CEF aims to enhance EU connectivity and infrastructure by funding projects that develop and modernize digital networks. It supports public administrations in deploying high-speed broadband, digital public services, and secure digital infrastructures to improve administrative efficiency and citizen engagement

European Commission

Upcoming Funding Opportunities

TOPIC OPPORTUNITY	DATES	AVAILABLE FUNDING
Connecting Europe Facility : • 5G Large scale pilots (large scale 5G stand-alone infrastructure), €105 million. • Backbone connectivity for Digital Global Gateways (mainly submarine and terrestrial cables), €128 million . • Quantum Communication Infrastructure – The EuroQCI initiative, €90 million .	**Open 22.10.24 | Close 13.02.25**	323 MEuro funding available for co-funding the deployment of digital connectivity infrastructures

Interreg

Interreg Europe

Co-funded by the European Union

Sharing **solutions** for **better** **regional policies**

- **Funding Source**: Interreg is financed through the European Regional Development Fund (ERDF) and other EU instruments.
- **Stakeholders**: Regional and local authorities, public bodies, NGOs, and businesses.
- **Objectives**: Interreg promotes cross-border, transnational, and interregional cooperation. It funds projects that enhance digital connectivity and innovation in public administrations, facilitating collaboration and knowledge sharing across regions to address common challenges and improve public service delivery.

All funds committed

European Commission

Technical Support Instrument (TSI)

- **Funding Source**: TSI is funded through the EU budget under DG REFORM, with a focus on supporting structural reforms.
- **Stakeholders**: National and regional authorities of EU Member States, experts from Member States' administrations, international organisations, private firms, and consultants.
- **Objectives**: TSI provides tailored technical expertise to help Member States design and implement digital reforms. It supports projects that enhance digital governance, modernise public administration, and improve public service delivery through the adoption of digital technologies.

InvestEU

- **Funding Source**: InvestEU supports sustainable investments by leveraging both private and public funds. It aims to mobilize over €372 billion in investments through an EU budgetary guarantee.
- **Stakeholders**: National, regional and local governments. Public agencies. Companies and non-profit organisations.
- **Objectives**: InvestEU recognizes the importance of digitalization for Europe’s competitiveness and prosperity. At least 10% of the program’s resources will be directed toward digital objectives. This aligns with the European Green Deal and emphasizes the transition to a digital economy.

EU Funding Opportunities to Boost your Digital Strategy

Navigate the basic requirements for participation and the application process.

European Commission

The process of participating

The Idea

The Call for Proposals

Eligibility check

Preparing the proposal

Submitting the proposal

Evaluation

Participation requirements

Main requirements (specific requirements in the call document)

- Most calls require proposals from consortia, consisting of partners from different eligible countries
- Most consortia need to gather a minimum number of partners.
- Some call topics specify types of organisations that have to be part of a consortium

Eligibility

- Legal entities (public or private bodies and international organisations of European interest)
- that are established in a EU member state or an eligible non-EU country
- There may be restrictions regarding security and strategic autonomy (calls regarding cybersecurity, AI and HPC)

Participation of third countries

- Countries already associated: Norway, Iceland, Liechtenstein (EEA)
- Countries showing interest in association: Turkey, Serbia, Israel and Ukraine
- Entities from third countries can participate in the consortia but cannot receive funding.

Application Process

Application Form

- Part A – Administrative information generated by the IT system in the Portal submission system
- Part B – Narrative description of the project. Part B needs to be uploaded as PDF (+ annexes) in the Submission System. The templates to use are available in the submission site.

How to prepare and submit it?

- The Application Form must be prepared by the consortium and submitted by a representative.
- Page limit normally 70 pages (unless indicated in the Call)
- supporting documents can be provided as an annex and do not count towards the page limit
- Keep your text as concise as possible. Do not use hyperlinks to show information that is an essential part of your application

European Commission

Application Process

Your proposed work must be within the scope of a work programme topic

You need to demonstrate that your idea is ambitious and goes beyond the state of the art

Your scientific methodology must take into account interdisciplinary, gender dimension and open science practices. It must not significantly harm the environment

EXCELLENCE

You should show how your project could contribute to the outcomes and impacts described in the work programme (the pathway to impact)

You should describe the planned measures to maximise the impact of your project ('plan for the dissemination and exploitation including communication activities')

IMPACT

You should demonstrate the quality of your work plan, resources and participants

IMPLEMENTATION

Evaluation

Award criteria

- **Relevance** (e.g. alignment with objectives, contribution to long-term policy objectives and relevant policies, synergies with other activities)
- **Implementation** (e.g. maturity of the project, soundness of implementation plan, efficient use of resources, capacity of applicants)
- **Impact** (e.g. expected outcomes and deliverables, strengthen competitiveness, benefits for society)

Formal requirements

- Deliver on time
- Deliver all the needed documentation, no amendment is possible

Award criteria	Minimum pass score	Maximum score
Relevance	3	5
Implementation	3	5
Impact	3	5
Overall (pass) scores	**10**	**15**

Maximum points: 15 points.

Individual thresholds per criterion: 3/5, 3/5 and 3/5 points.

European Commission

Cost Categories

A- Personal Cost

- A1 - Employees
- A2 - Natural persons under direct contract
- A3 - Seconded persons
- A4 - SME owners

B- Subcontracting

C- Purchase Costs

- C1 - Travel and subsistence
- C2 - Equipment
- C3 - Other goods, work and services

D- Other Cost Categories

- D1 - Financial support to third parties
- D2 - Internally invoiced goods and services

E- Indirect Costs

- 7% of direct costs

European Commission

EU Funding Opportunities to Boost your Digital Strategy

4

Assess co-funding investment needs

European Commission

Co-Funding

Most actions foreseen in the Digital Europe Programme require co-investments from the public and/or private sectors

The models of these co-investments are described in the relevant parts of the work programmes

Co-funding rates

50 %

25 %

Co-funding sources

- Own resources
- Subsidies regional funding
- Subsidies from EU funding
- A mix of above

*By no circumstances shall the same costs be financed twice by the EU budget

European Commission

LIVING-IN.EU: THE GATEWAY TO KNOWLEDGE SHARING, CURATED RESOURCES AND SCALABLE SOLUTIONS

European Commission

Funded by
the European Union

What is Living-in.EU?

Living-in.EU is an EU initiative for local and regional leaders who recognize the potential of technology to enhance the quality of life in their towns, cities, or regions. The initiative fosters European cooperation and upholds European values, enabling cities and regions
to share smart city strategies , and re-use solutions to avoid working in isolation.

MONITORING AND MEASURING WORKING GROUP

Funded by
the European Union

WHAT IS IT ABOUT?

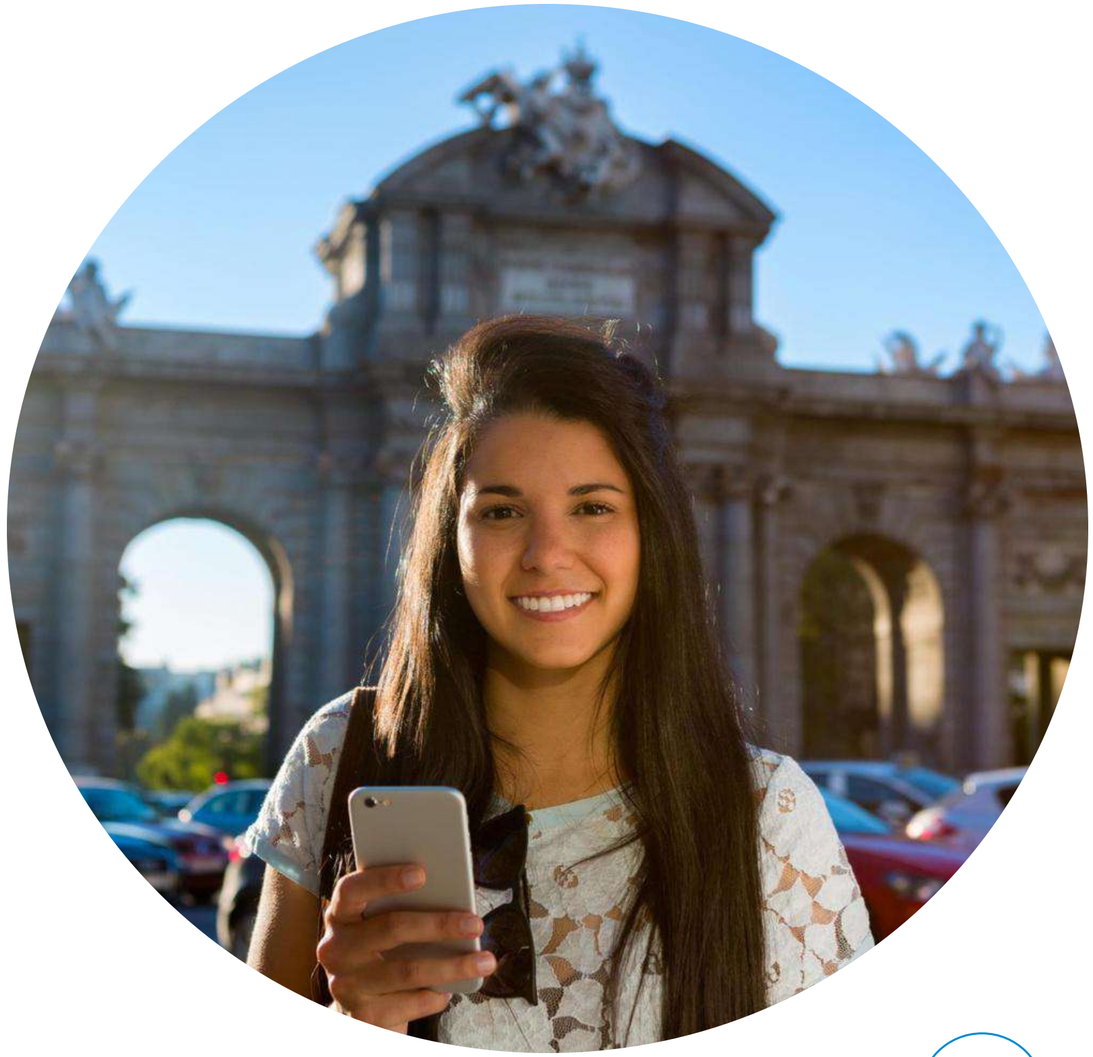
- Bringing together communities, cities, regions and a unique framework for measuring and monitoring sustainable digital transformation
- Validate local and regional key performance indicators and data collection procedures for common and transparent monitoring
- Understand the digitalisation landscape to promote digital transformation and the scaling up of digital innovation in cities, regions and communities

Funded by the European Union

WHO SHOULDJOIN?

If you are a city or regional representative:

- ✓ Actively contributing to digital transformation and exchanging with peers on measurement tools and strategies
- ✓ Seeking to enhance their ability to measure transformation through a comprehensive digital overview
- ✓ Interested in defining a framework for measuring digital transformation across European cities and regions
- ✓ In charge of measuring and reporting progress on digital transformation at local and regional levels, including with the LORDIMAS tool



Funded by
the European Union

WHAT ARE THE ACTIVITIES AND RESULTS?

- The LORDI (Local and Regional Digital Indicators) framework, which aims to support digital transformation efforts across Europe by providing the necessary evidence on what is happening on the local and regional levels.
- The LORDIMAS (Local and Regional Digital Maturity Assessment tool), an annual self-assessment exercise and a tool designed for local, metropolitan and regional governments.

Funded by
the European Union

LEGAL WORKING GROUP

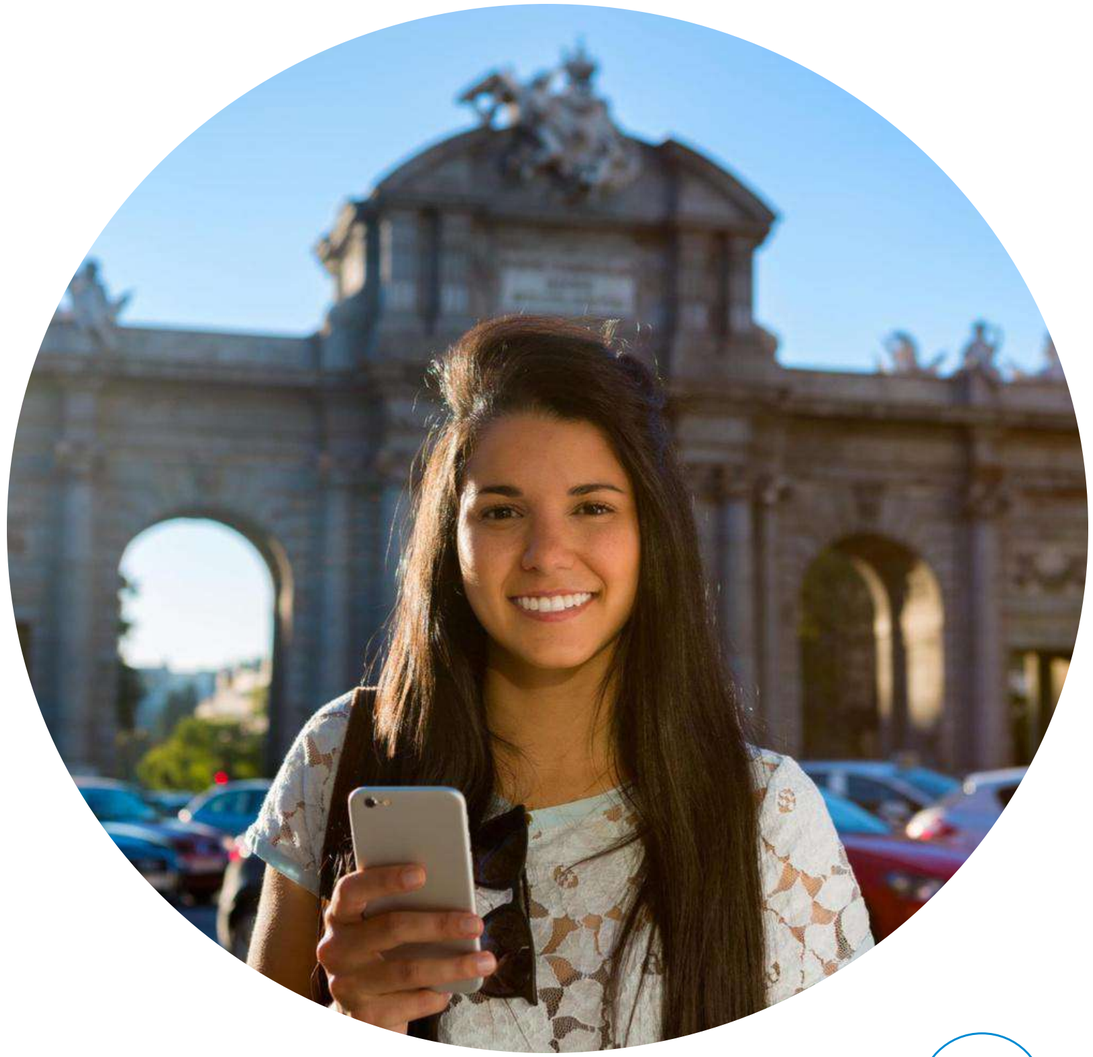
WHAT IS IT ABOUT?

- Explanations of policy legislations and programmes at the EU level
- Guidance on upcoming policy programmes
- Definition of procurement clauses for tendering

Funded by
the European Union

WHO SHOULDJOIN?

Experts from cities, regions, and national authorities that would like to explore the legal aspects of digital transformation



Funded by
the European Union

WHAT ARE THE ACTIVITIES AND RESULTS?

- Understanding EU legislative measures and proposals
- Exchanging best practices
- Workshops with technology lawyers
- Definition of Procurement Clauses of AI,

  freely
  and openly available
