

LIVING-IN.EU | GO-LI.EU

Annual plan Technical working group
2025

Technical Working group

The role of the Technical Subgroup is to identify and support the implementation of common existing digital solutions on a large scale in the EU to support the three principles given in the Living-in.eu declaration regarding the technical commitment:

- Use common standards and technical specifications,
- Make key enablers (including data, infrastructure and services) available to all,
- Establish a common market.

For 2025, the Technical subgroup focuses on supporting the continuing development of MIMs Plus within the context of European legislative measures and policy proposals. Based on the experience of working on the MIMs over the last few years, the Living-in.EU technical working group is in the process of reviewing the MIMs Plus to provide them with a consistent structure (Y.MIM) and greater clarity. It will do this in the context of the developing work on Data Spaces for Smart & Sustainable Cities and Communities, Local Digital Twin Toolbox, CommuniCity, CitCom.AI and other relevant European projects pertaining to the digital transformation of European communities.

Main results 2024

1. MIMs Plus Version 6.5

- Target: Living-in.EU signatories & supporters.
- Interim version
- Applied to data platform, local digital twin

2. MIMs Plus Version 7

- Target: Living-in.EU signatories & supporters.
- Available on the [website](#)
- Applied to data platform, data spaces, local digital twin

3. Gaps between supply and demand side in the context of public procurement

4. Events

- 4 Technical Working Group meetings

Objectives Working Group 2025

1. Publish MIMs Plus 7.5, and 8 (new framework)
2. Showcase use of MIMs Plus in European projects, incl. European Data Space for Smart Communities, Local Digital Twin Toolbox, CommuniCity, CitCom.ai
3. Invite/Map (relevant) European DEP-funded projects to help uptake of the MIMs Plus

Activities and results – Technical WG

Activity	Results/ expected outcome	How does it contribute to the WG objectives 2025?	Link to the other sub-groups and/or other stakeholders	Scheduled	Activity leader
Technical Working Group Meeting	EDIC MIMs Plus Version 7.5; Introducing MIM 8 on LDTs	Development of MIMs Plus, involving European projects	EDIC	Q1 (March)	Sophie Meszaros (OASC)
Technical Working Group Meeting	MIMs Plus Version 8 Approval Exchange experience in NIS-2 Specific issues of public procurement in IT	Approval of MIMs Plus V8 Revisit WP2 deliverable	LDT Toolbox	Q2 (May)	Sophie Meszaros (OASC)
Technical Working Group Meeting	MIMs Plus Version 9 Roadmap MIMs Plus Accessing Data, Interlinking Data Interoperability Initiatives Workshop	MIMs Plus V9	SEMIC	Q3 (September)	Sophie Meszaros (OASC)
Technical Working Group Meeting	MIMs Plus Geospatial Interoperability initiatives Workshop	MIMs Plus V9	SEMIC	Q4 (November)	Sophie Meszaros (OASC)

1st meeting: LDT MIM

- When: Q2 (March/April2025)
- Where: online
- Objectives: 1,2,3
- This meeting will introduce the MIM pertaining to the LDT MIM and open floor for input
- Key Components:
 - **MIRO board exercise:** Look at familiarity with the principles, the individual MIMs and examples of uses.
 - **Conclusions:** Technical Working Group Co-Chair to consolidate input into clear action points to map European technical specifications

2nd meeting: MIMs Plus Version 8 Validation

- When: Q2 (June 2025)
- Where: online
- Objectives: 1,2,3,
- This meeting will introduce the MIMs Plus Version 8 The development work is anchored in European projects (European Data Space for smart communities, LDT Toolbox, CommuniCity, Citcom.AI) pertaining to data platforms, data spaces, and local digital twins. This space will create the opportunity for signatories to validate this new version.
- Key Components:
 - **MIMs Plus Version 8 document:** MIMs in the Y.4505 format in the new framework
 - **Knowledge Exchange:** MIMs on Security, NIS2 experience exchange
 - **MIRO board exercise:** Participants provide input for the validation of the new version
 - **Conclusions:** Technical Working Group Co-Chair to consolidate input into clear action points to finalise MIMs Plus Version 8 to be put forward to the steering group and finally be published for the Stakeholder Forum.

3rd meeting: MIMs Plus Version 8 Roadmap

- When: Q3 (September 2025)
- Where: online
- Objectives: 1,2,3,
- This meeting will map ongoing European activities that should steer the roadmap for the MIMs Plus Version 9.
- Key Components:
 - **Knowledge Exchange:** Showcasing best practices and case studies from ongoing European projects employing the Accessing and Interlinking Data MIMs
 - **Workshop:** Review the Accessing and Interlinking Data MIMs
 - **Tools and Support:** Demonstrating existing tools available to support digital innovation of communities.

4th meeting: European Projects and MIMs Plus Version 8

- When: Q4 (November 2025)
- Where: online
- Commitments: 1,2,3
- This meeting aims to establish a collaborative framework for the Living-in.EU Technical Subgroup and European Projects to foster the acceleration of digital deployment within the EU.
- Key Components:
 - **Capacity Building:** MIM on Geospatial
 - **Knowledge Exchange:** Showcasing best practices and case studies from successful implementation of the MIMs Plus
 - **Tools and Support:** Demonstrating the success stories and available tools for digital transformation.
